**Subject:** Kent State use of UCC space

John,

I have had a request from a professor in the Music Education department at Kent State about possible Saturday use of Kent UCC space this next school year. He is starting a music program with toddlers and parents alongside music education students. He stated that the Methodist church did offer a few rooms, but there were too small.

This would be a wonderful opportunity to partner with the school of music at KSU especially since we are hoping to create even more connections through KSU concerts in our sanctuary.

John, I would like to hear your thoughts and/or concerns about this from a Property perspective.

I know there are a lot of elements to property/facility use so I would like to get this discussion going. Leah, are there any regularly scheduled events on Saturdays in the Chapel?

Thanks!
